We review your escrow account annually to ensure that you have adequate funds to cover your tax and insurance items for the next 12 months. The amounts billed for certain escrow items changed. This statement describes the changes, possible changes to your monthly payments, and your options.

What changed?

Taxes decreased by \$113.22 per year.

Insurance decreased by \$133.33 per year.

Changes in the above items mean that the amount needed in your escrow account decreased by \$147.30 per year.

How do these changes affect me?

Based upon the Anticipated Escrow Disbursements and Payments, we have determined that your Escrow Account has sufficient funds. In order to receive a refund your loan must be current, in good standing and have sufficient funds in your escrow account.

How did Rushmore make the escrow calculations?

Step 1: Rushmore analyzes all items paid by the escrow account, we then calculate the amount that you'll likely need to pay these bills.

Step 2: We take your anticipated taxes and/or insurance premiums to determine the total outgoing payments. We then divide the total outgoing payments by 12 to determine your monthly escrow amount.

Your total anticipated tax and/or insurance premium(s) are as follows:

Annual Property Taxes	\$1,756.38
Annual Property Insurance	\$2,574.24
Total	\$4,330.62 divided by 12 months = \$360.88

Step 3: We calculate the minimum required escrow balance. Your escrow account must have a minimum balance of \$0.00 for the next year.

Step 4: We calculate your annual escrow account projection for the coming year. If your monthly escrow balance falls below the minimum balance of \$0.00, your escrow account experiences a shortage. If our calculation determines that your monthly escrow balance will not reach the minimum balance, your escrow account will have an overage.

The table below demonstrates the estimated activity in your escrow account for the coming year.

What escrow activity is expected in the coming year?

The highlighted row indicates the lowest estimated escrow balance for the year of \$6,089.22. The difference between the lowest projected balance of \$6,089.22 and the minimum required escrow balance of \$0.00 is \$7,232.22.

\$7,232.22 is your escrow overage.

NOTE: If this escrow analysis indicates that there is a surplus, it may not mean that you are entitled to receive a return of that surplus. This analysis was calculated based on an assumption that the account is current according to the terms of the note and Mortgage/Deed of Trust. If the account is behind, in default, or in bankruptcy, this analysis may not reflect the current state of the account or the terms of a bankruptcy plan. If there are enough funds in the escrow account the surplus will be mailed to you within 30 days, provided the account is current under the terms of the note and Mortgage/Deed of Trust.

"If there is an amount listed in the "Actual" column under Payments To Escrow Account on Page 2 above, then this is the assumption that was made and indicates the amount that would have been paid into escrow for a contractually current loan. This number does not represent payments that were actually made by you. As discussed above, these escrow calculations are calculated based on an assumption that the account would be current according to the terms of the note and mortgage/deed of trust.
